The right partner. The right services.

The Principal Financial Group® leads the industry with a remarkably fast underwriting and issue process.

Competitive turnaround times

- We've expanded our team to help us expedite your cases.
- Top-tier industry time service
- 1035 unit to proactively expedite transfer of proceeds

Easy to work with

- Applications accepted electronically or by fax (1035 paperwork needs wet signature). Toll-free fax: 866-542-1359
- Quick Quotes System for submitting informal inquiries
- Dedicated home office case managers plus access to your underwriter when you need it. Toll-free phone: 800-654-4278

Principal TeleApp

Streamline the underwriting process and eliminate requirements:

- Eliminates redundant paramed questions
- Eliminates inspections through \$5 million
- Fewer Attending Physician Statements (APS) required

Online services

New business application forms

The Principal® provides easy access to life new business application forms in Virtual Supply on the advisor website. We have also teamed with the following companies to ensure our application materials are available to customers who subscribe to their services.

- iPipeline™
- Ebix's Vital Forms

Submitting new applications

Submit new business applications electronically to help streamline the new business process. We support the following electronic submissions:

- Principal Direct FTP (file transfer protocol)
- Principal FTP website

We have also teamed with the following companies to ensure new application submission is available to customers who subscribe to their services:

- PaperClip Incorporated
- ExamOne
- iPipeline's iGO™

Traditional submissions such as U.S. mail and fax are also welcomed.

Pending case status

Receive important up-to-date information on pending life and disability insurance new business via:

- Principal Pending Business Report
- Principal Direct FTP from us in ACORD format

We have also teamed with the following companies to ensure our pending new business information is available to customers who subscribe to their services:

- Oracle/SkyWire
- SmartOffice™
- AgencyWorks

We have also teamed with the following companies to ensure underwriting rules are available to customers who subscribe to their services:

- XRAE

Unique survivorship features

Reconsideration

- Available for rated or uninsurable risks
- Underwriting for second insured not required

Seven classes of uninsurable

- U1 (our most favorable uninsurable risk class)
- No minimum life expectancy through U7 (life expectancy of less than one year)

Opt-out underwriting

- For U7 risks with life expectancy less than one year
- Routine requirements waived

Business case advantage

Flexible, partnership approach – collaborate for creative solutions

- Understand concept and key issues
- Work with Advanced Solutions when needed

Multi-life underwriting

- Available for employer-sponsored plans
- Home office pre-approval required
- Four underwriting programs available

Nonqualified executive benefits – aggregate funding on COLI

- Liberalized financial underwriting limits
 - 30 times income to age 55
 - 15 times income age 56 and over
- Streamlined underwriting requirements
 - Physical measurements + ECG + Labs + APS
 - No paramed or MD exams required
 - No inspections required
 - Employer census provides financial information
- Preliminary underwriting and selection of participants using TeleApp
- Added level of service – we order all requirements and APS reports for you
- Pre-completed application forms provided for formal signatures

Accelerated Underwriting

What is Accelerated Underwriting?

Principal Accelerated Underwriting is a streamlined underwriting approach that improves the process through:

- Faster underwriting decisions within 48 hours
- The elimination of lab testing and paramed exams for 50-60 percent of applicants who qualify*

*Based on age and face amount requirements.

How does it work?

Step 1. Complete Part A and C of the application. Do not schedule the paramed appointment. **Indicate “Acc Und” on the Producer Report (and agency transmittal if submitted) to alert the case manager that this is a Principal Accelerated Underwriting case.**

Step 2. Call 888-TeleApp (888-835-3277), option 2, to set up the telephone interview for your client. You can have the client complete an interview immediately, or you can schedule a future appointment. Make sure you tell the interviewer that this is a Principal Accelerated Underwriting application.

TeleApp Contact Center Hours: Monday – Thursday: 7 a.m. – 10 p.m. CST | Friday: 7 a.m. – 7 p.m. CST

Step 3. Underwriting evaluates the TeleApp, Motor Vehicle Report, prescription history and MIB Inc. report. If the application is approved for Principal Accelerated Underwriting, it proceeds to issue. If not approved, a paramed appointment will be scheduled plus any additional requirements. Use the checklist below to help determine if your clients(s) are part of the 50–60 percent who qualify.

GENERAL QUALIFICATIONS

- Ages 18-60
- Face amounts between \$50,000 - \$1 million (\$2 million for SUL)
- Requested products are Term (10-,15-, 20- and 30-year) UL, IUL, VUL, SUL, or Benefit VUL II (NY only).
- Build is within recommended weight limits (see chart).
- No major medical condition(s) (see chart).

Participation in Aviation or Hazardous Sports Activities may qualify subject to activity details gathered during the TeleApp.

UNDERWRITING BUILD CHART

AGES 18-44				AGES 45-60			
Height	Weight	Height	Weight	Height	Weight	Height	Weight
4'8	79 – 149	5'9	119 – 226	4'8	79 – 158	5'9	119 – 240
4'9	81 – 154	5'10	122 – 233	4'9	81 – 164	5'10	122 – 247
4'10	84 – 160	5'11	126 – 240	4'10	84 – 169	5'11	126 – 254
4'11	87 – 165	6'0	130 – 247	4'11	87 – 175	6'0	130 – 261
5'0	90 – 171	6'1	133 – 253	5'0	90 – 181	6'1	133 – 269
5'1	93 – 177	6'2	137 – 260	5'1	93 – 187	6'2	137 – 276
5'2	96 – 183	6'3	141 – 268	5'2	96 – 194	6'3	141 – 284
5'3	99 – 189	6'4	144 – 275	5'3	99 – 200	6'4	144 – 291
5'4	102 – 195	6'5	148 – 282	5'4	102 – 206	6'5	148 – 299
5'5	106 – 201	6'6	152 – 289	5'5	106 – 213	6'6	152 – 307
5'6	109 – 207	6'7	156 – 297	5'6	109 – 219	6'7	156 – 315
5'7	112 – 213	6'8	160 – 304	5'7	112 – 226	6'8	160 – 323
5'8	116 – 220	6'9	164 – 312	5'8	116 – 233	6'9	164 – 331

Note: Traditional underwriting is required for builds that are off the chart.

MAJOR MEDICAL CONDITIONS

Alcohol abuse and/or treatment	Drug abuse and/or treatment	Melanoma
Atrial Fibrillation	Epilepsy/Seizure	Multiple Sclerosis (MS)
Barrett's Esophagus	Gastric Bypass/Lap Band	Parkinson's Disease
Bipolar Disorder	Heart Disease/Surgery – all forms	Peripheral Artery Disease (PAD/ Peripheral Vascular Disease (PVD))
Cancer (exceptions: Basal Cell and Squamous Cell Carcinomas)	Hepatitis	Rheumatoid Arthritis (RA)
Chronic Obstructive Pulmonary Disease (COPD/Emphysema)	Hypertension (diagnosed within six months)	Sleep Apnea
Crohn's Disease	Kidney Disease	Stroke/Transient Ischemic Attack (TIA)
Diabetes/Gestational Diabetes	SLE/Lupus	Ulcerative Colitis (UC)

Note: Advanced diagnostic testing, biopsies, cardiac testing and other medical history may require an attending physician's statement. When attending physician's statements are ordered, we will require traditional underwriting.

Automatic Standard Approval Program

How it works

Automatic Standard Approval Program (ASAP) is designed to help eliminate low substandard ratings. While some companies have eliminated their program or changed their guidelines, The Principal® still supports ASAP.

ASAP GUIDELINES:

- Up to \$5 million face amount
- Up to Table 3 or flat extra to \$7.50/\$1,000
- Permanent products only* (both lives are eligible for Survivorship UL Protector II)
- Applicable through age 70
- Medical ratings only [no driving, hazardous sports, aviation or lifestyle cases (drug/alcohol use)]
- Can be used with Healthy Lifestyle Credits
- Cannot be used with a combo of Table Rating + Flat Extra

How does our program differ from other companies?

The Principal does not limit or exclude cancer or coronary heart disease. Many competitors use the same criteria, but they exclude cancer or coronary. Also, our Healthy Lifestyle Credit (HLC) program can be used in conjunction with ASAP. The combination of HLC and ASAP provides an opportunity in some cases to move somebody outside a Table 3 to Standard. For example, when we rate a person a Table 5 and use HLC to get them to a Table 3, we can then use ASAP to get to a Standard rating.

What are the benefits?

Our ASAP eliminates the low, substandard ratings that can be the most challenging to present to your client. Consequently, you can present an offer to a client that has a greater chance of being placed. The greatest benefit is the competitive Standard rate received by your client without a reduction in the compensation paid to you.

ASAP IN ACTION

Proposed Insured	Product Type	Medical Condition	Underwriting Offer
Ben, age 55, 6 ft, 265 lbs	UL	<ul style="list-style-type: none"> Moderate rheumatoid arthritis using Humira High blood pressure and high cholesterol, both controlled with medication Normal stress test within three years Annual exams with DRE and PSA 	Standard using Healthy Lifestyle Credits and ASAP together
Mark, age 68	SUL	<ul style="list-style-type: none"> Diabetes, good control Proteinuria, mild Hypertension and cholesterol, well-controlled Table 3 risk 	Standard on both lives using ASAP
Ruth, age 70		<ul style="list-style-type: none"> Mild CAD in several vessels Favorable stress tests, well-controlled CV risk factors OSA, moderate, compliant with CPAP Table 3 risk 	

*For product-specific eligibility, contact your home office underwriter.

Unlike many of our competitors, The Principal does not exclude cancer or coronary artery disease from our Automatic Standard Approval Program.

Healthy Lifestyle Credits

What are Healthy Lifestyle Credits?

The Principal feels all applicants should be given credit for doing the right things to take care of themselves. Because of this philosophy, we use Healthy Lifestyle Credits (HLCs) as an underwriting tool to help clients get the most favorable rating possible. The underlying basis of our HLCs is an evaluation of several coronary and cancer risk factors of a client as follows.

HLC risk profile factors

- Blood pressure
- Cholesterol
- Pulse
- Weight
- Family history
- Preventive cancer screening tests
- Preventive heart screening tests
- Routine physicals

A scoring system is used for each factor, with positive points for favorable factors and negative points for less favorable factors. If a factor is considered neutral, a score of zero is given to reflect the neutral result. These factors combine to make up an insured's Healthy Lifestyle Credit Score. The resulting score is used in conjunction with our Preferred/Super Preferred Guidelines (Pages 24 and 25) to determine an insured's rating.

How do HLCs help your clients?

Our underwriters review an applicant's risk profile factors and assign positive or negative points. When finished, they use the applicant's results to determine the final underwriting rating. This allows us to reduce or eliminate a table rating for the proposed insured.¹ Favorable HLCs can help your clients earn up to two tables of credit that offset table ratings that have been assessed. Our Automatic Standard Approval Program, which is designed to help eliminate low substandard ratings, can also be used in conjunction with HLCs. Here are a few guidelines to keep in mind with HLCs:

- Ratings for asthma, anxiety, depression, colitis, sleep apnea, body build and blood pressure are examples of covered conditions. (This listing is not all inclusive of covered conditions.)
- A few conditions are excluded, including ratings for cardiovascular disease, diabetes and flat extras.
- As an added benefit, there are no limitations due to age, plan or face amount.

EXAMPLES		
Proposed Insured	Original rating (based on medical history)	Improved rating with HLCs
Mark suffers from depression	Table 5	Table 3
Sue has asthma	Table 4	Table 2
Brian's build falls outside the guidelines	Table 2	Standard

¹ Earn up to two tables of credit that offset table ratings that have been assessed. Ratings for cardiovascular disease, diabetes and flat extras are excluded from the HLC program. There are no limitations due to age, plan or face amount.

Save Time with TeleApp

As a financial professional, we know that your time is better spent focusing on sales and service. Let us complete the medical portion Part B (Part II) of the application for you using our **free TeleApp service**. We employ our own trained professionals and use a state-of-the-art reflexive system, designed by our underwriters, to guide your clients through the insurability questions.

Our reflexive questions let the underwriters gain additional insight into medical impairments that our traditional application process doesn't allow. No more back and forth between your client and underwriting trying to clarify vague paper application medical questions. We are so confident in the quality of the information we obtain through TeleApp that we require fewer routine requirements and have reduced APS ordering by 40 percent.

Five easy steps

1. **Complete Part A (Part I) of the application**, and obtain Part C signatures. Explain the interview process to your client. The **TeleApp Guide (BB10268)** provides step-by-step instructions to help prepare your client.
2. **Schedule the interview** using one of the scheduling options shown below. Interviews may be scheduled from 7 a.m. to 10 p.m. CST, Monday through Thursday, and 7 a.m. to 7 p.m. CST, Friday.
3. **Submit the initial application** and other required forms (supplemental applications, illustrations, blood consent and Field Office Report) to your New Business coordinator for processing.
4. **The TeleApp interviewer calls your client** at the scheduled time and completes the insurability questions (Part B/Part II). The average interview takes 15-20 minutes. A draft copy of the completed interview responses will be sent to you once the application is received in the home office.
5. **Deliver the policy to the client.** The home office provides two copies of the completed application. Your client reviews the information and signs both copies. One copy is attached to the policy and remains with the client. Return the entire packet, along with the signed application (Part D), to the home office.

Benefits of using TeleApp

- **It's free!**
- Improved policy issue time
- Less paperwork and follow-up
- Fewer routine requirements, attending physician statements and paramedical exams
- Advisors don't have to ask awkward medical questions
- You choose whether or not we schedule the paramedical examination.
- Clients' medical information is gathered by our professional interviewers.

Helpful hints

- Immediate interviews are fast and easy. 888-TeleApp (888-835-3277), option 2.
- Scheduled interviews with a specific date and time have an 80 percent first-call completion rate (35 percent when not scheduled). If you're not completing an immediate interview, it's better to schedule a specific day and time.
- When scheduling an interview, let us know the state in which the application was signed. We can then tailor the interview to the state-specific application questions.
- The confirmation number provided by the TeleApp counselor and the date and time of the interview should be recorded on the Field Office Report for Life applications or the Producer's Report for Disability applications.

Scheduling the interview

You can choose to have your client complete an immediate interview or you can schedule a future date and time when it is most convenient for your client using the following options:

- To immediately complete the interview, call 888-TeleApp (888-835-3277), option 2.
- To schedule an interview, call 888-TeleApp (888-835-3277), option 1.
- Submit a request using the online form at www.principal.com/teleapp.

When scheduling an interview, please provide this information:

- Producer's name and phone number
- Client's name, Social Security number and date of birth
- Products and total amounts applied for
- Signature state (the signing state)
- Client's telephone number and time to call

Staying informed

You may access your pending business report on the advisor website at any time to monitor the status of the TeleApp interview. Or you can call our TeleApp department any time you have questions, 888-TeleApp (888-835-3277), option 1.

Preparing your clients

By helping clients know what to expect, we can more efficiently complete the interview and build a positive customer experience. On average, interviews take 15-20 minutes and cover the following topics:

- General activities and health habits
- Annual income and net worth information
- Foreign travel history for the last five years
- Names and dosages for all medications currently being taken
- Names, addresses and phone numbers of medical providers
- Approximate dates of any injuries, surgeries, emergency room visits, hospitalizations, illnesses or conditions

Go to www.principal.com/teleapp.

Impairments

The impairment information on the following pages has been provided to help give you a general idea of potential underwriting outcomes based on medical and non-medical life insurance underwriting. By initially obtaining specific, detailed information, your underwriter will be able to provide the right quote quickly and easily.

Descriptions of possible underwriting outcomes represent tentative, non-binding assessments based on hypothetical parameters using our underwriting guidelines at the time of publication. Actual underwriting outcomes may possibly be more favorable than illustrated using available Healthy Lifestyle Credits and our Automatic Standard Approval Program (ASAP). We reserve the right to apply individual consideration to any case. All cases are subject to full underwriting, and assessments are subject to change based on actual file review. For more information, contact your home office underwriter.

The impairments table is set up as follows:

	RISK FACTORS	TYPICAL REQUIREMENTS	LIKELY UNDERWRITING DECISION
IMPAIRMENT The name of the impairment, including a short description. Conditions are listed alphabetically	The criteria the underwriter uses to classify the risk	Medical requirements the underwriter is likely to request in addition to the routine age and amount medical requirements For Faster Decision – These are the specific details to include in your application package to enable the underwriter to quickly and easily provide the right quote. This information may be used to determine appropriate APS acquisition, thereby expediting the underwriting process and limiting the need for subsequent requirement requests.	The risk classification or rating necessary for the impairment based on the factors and requirements presented. Many impairments outline a best-case scenario, typical case and worst-case rating.

Impairments | MEDICAL

	RISK FACTORS	TYPICAL REQUIREMENTS	LIKELY UNDERWRITING DECISION
ALCOHOL ABUSE (Includes alcoholism and problem drinking)	<ul style="list-style-type: none"> • Current age • Amount of past and present alcohol consumption declared • Any diagnosis of abuse or dependence • Past history of treatment • Results of all investigations, including liver enzymes and alcohol markers • How long abstinent or consuming in moderation • Any relapses • Member of a self-help group such as Alcoholics Anonymous • Treatment with medication • Any co-morbid conditions, including any history of other substance abuse, driving offenses or participation in hazardous sports • Any history of marital or job instability • Any medical complications 	<p>Requirements: APS, medical exam, MVR, blood test, alcohol questionnaire, inspection report selectively</p> <p>For faster decision:</p> <ul style="list-style-type: none"> • Provide details of medical treatment. • Document any residential care/ treatment including dates and length of treatment. • Outline any favorable aspects such as continued employment, attendance in Alcoholics Anonymous or similar body, etc. 	<p>Ratings depend primarily on applicant's age, time since last use and any co-morbid factors.</p> <p>Alcoholism: Best Case: Standard (over age 30 and > five years since last consumption) Worst Case: Decline</p> <p>Problem Drinking: Best Case: Table 2-4 (over age 30 and mild) Worst Case: Decline</p>

Note: To qualify for Preferred or Super Preferred (or Super Standard), a client needs to meet our Preferred/Super Preferred Guidelines (Page 24 and 25) and meet our Healthy Lifestyle Credit scorecard thresholds for each risk profile factor (Pages 20 and 21).

Balanced Approach to Preferred/Super Preferred

Preferred/Super Preferred classes are designed for individuals whom we expect to have lower or better mortality than individuals rated Standard.

How does our program differ from other programs?

- The Principal uses a “scorecard” approach that allows positive credits to offset negative risk factors.
- We allow individuals taking medication for high blood pressure and cholesterol to qualify for a Preferred rating.
- We provide credits for regular checkups and preventive screening tests.
- Preferred ratings are available with aviation/sports exclusions.
- Individuals with an imperfect family history or other risk factors may still qualify for a Preferred rating if there are enough favorable credits.

Basic guidelines

The following describes our criteria for rating a case Preferred or Super Preferred:

- Preferred ages = 20 to 85;
Super Preferred ages = 20 to 80
- A scorecard approach is used for each factor, with positive points for favorable factors and negative points for unfavorable factors.
- Tobacco use:
 - Super Preferred class requires no tobacco use for prior 60 months.
 - Preferred Non-Tobacco class requires no tobacco use for prior 24 months (prior 36 months for ages 71 to 85).
 - Preferred Tobacco class includes all forms of tobacco.

Note: To qualify for Preferred or Super Preferred (or Super Standard), a client needs to meet our Preferred/Super Preferred Guidelines (Page 24 and 25) and meet our Healthy Lifestyle Credit scorecard thresholds for each risk profile factor (Pages 20 and 21).

EXAMPLES			
	SCENARIO	OUR RATING	COMPETITOR RATING
MALE, AGE 68	<ul style="list-style-type: none"> Blood Pressure = 130/87 6'0" and 215 pounds Pulse = 74 and regular Cholesterol/HDL = 6.2 EKG = normal Family history: father suffered a heart attack at age 62 Last complete physical was 18 months ago, including a colonoscopy and PSA. All results were normal. 	<p>Client meets criteria to remain Preferred. When looking at the entire scorecard, we are able to overcome high cholesterol/HDL ratio using Healthy Lifestyle Credits (HLCs).</p> <ul style="list-style-type: none"> Final rating: Preferred 	<p>Client is not allowed the Preferred class due to high cholesterol/HDL.</p>
FEMALE, AGE 52	<ul style="list-style-type: none"> Blood Pressure = 128/76 5'5" and 135 pounds Pulse = 72 and regular Cholesterol/HDL = 3.2 EKG = normal Family history: mother died of breast cancer at age 65 Last complete physical was 9 months ago including mammogram, which was within normal limits Mammograms last 10 years have been within normal limits 	<p>Client meets criteria to remain Super Preferred/Preferred. When looking at the entire scorecard, we are able to offset family history using favorable HLCs due to regular mammograms.</p> <ul style="list-style-type: none"> Final rating: Super Preferred 	<p>Client is not allowed the Super Preferred class due to family history (mother died of breast cancer at age 65).</p>
FEMALE, AGE 74	<ul style="list-style-type: none"> Blood pressure = 145/80 5'1" and 181 pounds Pulse = 72 and regular Cholesterol/HDL = 5.8 EKG = normal Family history: both parents died in their 90s No heart disease or cancer noted in family history Last exam was 12 months ago, including a colonoscopy and mammogram within normal limits 	<p>Client meets criteria to earn a Preferred rating. When looking at the entire scorecard, we are able to overcome build and cholesterol/HDL ratio by using HLCs for family history and frequent checkups.</p> <ul style="list-style-type: none"> Final rating: Preferred 	<p>Client is not allowed the Preferred class due to her build and cholesterol/HDL ratio.</p>

DRIVING²	<ul style="list-style-type: none"> No more than two moving violations in the past three years No driving under the influence or reckless driving in five years 	
OCCUPATION/MILITARY/AVIATION/HAZARDOUS SPORTS	<ul style="list-style-type: none"> Not ratable for occupation and military For aviation and hazardous sports risk, refer to your home office underwriter 	

¹ Tobacco definitions:

- Tobacco*: Current or past use in the prior 24 months of any tobacco including cigarettes, cigars, pipe, chew, snuff or nicotine aids. (For ages 71-85, a client will be classified as tobacco if they have used any types of tobacco in the last 3 years.)
- Non-tobacco*: No tobacco use in any form currently or in the prior 24 months.
- Exception to non-tobacco*: Twelve or fewer cigars in the prior 12 months with admitted use on the application (or TeleApp) and a negative urine specimen for nicotine will qualify for non-tobacco.
- Marijuana*: A recreational user of marijuana with a maximum use of 1-2 times per month, may qualify for non-tobacco rates. For increased frequency and for other types of use (medicinal, non-smoked forms, etc.), please contact your Home office Underwriter for details.
- In New Jersey, marijuana only users (no tobacco use) are considered non-tobacco.

² Subject to review of specific infractions.

Financial Underwriting

As a valued partner of The Principal, we strive to give you an edge in doing business with us. We are committed to maintaining market-leading underwriting and service, and we want you to be familiar with our financial underwriting requirements and guidelines when submitting cases to us.
