Your 2021 Social Media Calendar

Start 2021 off right by interacting with more of your prospects on social media. Not sure what to post? We're here to help.

Okay, so 2020 didn't go as planned, but we learned that online communications are more important now than ever. To help you stay on top of social media in 2021, here's an updated version of that calendar. If you already have a schedule or ideas for what to post, use them! This list is a handy backup if you run out of ideas, or are pressed for time. We've included finance & insurance items, plus the most well-known hashtags and internet-friendly holidays (like May 4th, for Star Wars fans).

Weekly Hashtags

If there's nothing on the schedule for a particular day and you want to post, you can always use one of these hashtags. Use them with text, pictures, or video on any social media network. They're especially important on Instagram, if that's one of your active social networks. We included five hashtags per day of the week, which will get you through the entire month.

Post a quick text update, a selfie, an inspirational quote, a factoid, tell followers what you're working on, or provide a financial tip. You can even share someone else's post - tell your followers who your mentors are! Your post doesn't have to be fancy. The point is to share your ideas and point of view with your prospects and clients on a consistent basis.
