

# NAC VersaChoice<sup>SM</sup> 10

## Fixed Index Annuity

### Flexibility to deal with the unexpected, no underwriting or medical exams required

What if you could increase the growth potential of your retirement savings while maintaining some access to your money in case the unexpected happens?

That's what you'll get with the innovative design of the NAC VersaChoice<sup>SM</sup> fixed index annuity and its optional enhanced liquidity benefit (ELB) rider from North American. It lets you participate in some of the market's upside while giving you access to more of your money, sooner, in the event you need it unexpectedly. And you won't have to submit yourself for underwriting or a medical exam to qualify.

The ELB rider is available for an annual fee of 0.50 percent of your accumulation value.

### Rider eligibility, benefit access based on six basic tasks

Complete all six of the below activities of daily living (ADLs) at issue, and meet the standard issue age requirements, and you're eligible. Then, if you're ever deemed permanently unable to complete two of the six activities, additional liquidity benefits will become available to you.

#### 1. Bathing

Washing yourself by sponge bath in a tub or shower, including getting in or out.

#### 2. Continence

Bowel and bladder control or, when unable to maintain control, the ability to perform associated personal hygiene.

#### 3. Dressing

Includes putting on and taking off clothing and any necessary braces, fasteners or artificial limbs.

#### 4. Eating

Being able to feed yourself or manage a feeding tube or intravenous feeding.

#### 5. Toileting

Getting to and from the toilet, getting on and off it and performing associated personal hygiene.

#### 6. Transferring

Moving into or out of a bed, chair or wheelchair.

Additional features are available with the ELB rider see the product brochure for further details.

North American Company  
for Life and Health Insurance

This is not a complete description of all features of the NAC VersaChoice<sup>SM</sup> fixed index annuity and only describes one feature. For more information please see the product brochure for further details on the features, limitations and complete product disclosures. NAC VersaChoice<sup>SM</sup> is issued on form NA1012A/ICC17-NA1012A. MVA (contract) by North American Company for Life and Health Insurance®, West Des Moines, IA. This product, its features and riders may not be available in all states or appropriate for all clients. Please ask your Sales Representative for product availability. Fixed Index Annuities are not a direct investment in the stock market. They are long term insurance products with guarantees backed by the issuing company. They provide the potential for interest to be credited based in part on the performance of specific indexes, without the risk of loss of premium due to market downturns or fluctuation. Although Fixed Index Annuities guarantee no loss of premium due to market downturns, deductions from your Accumulation Value for additional optional benefit riders could under certain scenarios exceed interest credited to the Accumulation Value, which would result in loss of premium. They may not be appropriate for all clients.
